

August 4th, 2009

Thank you for your interest in breeding to Vested Pine! Black Creek Crossing, home of Pure Dynamic, is excited to have this opportunity to promote and continue to become part of the history of such a great stallion as Vested Pine!

Vested Pine, bred and raised by Dan and Carol McWhirter is the product of one of the truly great pleasure horse breeding programs of our time. By The Investor and out of Zippos Bay Lady by Zippo Pine Bar, Vested Pine as an individual embodies the best traits of this pedigree. The Kaven's showed and promoted him to his best advantage earning a Congress Championship and an AQHA Superior.

Since beginning his career as a sire with the Kavens, the legacy of Vested Pine is continuing to be written in the performance of his offspring. A sire of multiple AQHA Champions and Reserve Champions, AQHA High Point, Congress Champions and Reserve Champions, NSBA Hall of Fame Inductee, NSBA Horse of the Year, NSBA Champions and his offspring are now internationally known with the 2008 Champion of the German Pleasure Celebration (Gold Styled VP) being a Vested Pine.

Our sincere congratulations to the many standouts by Vested Pine that have or are currently making their mark and winning: Vested Faith, Invest N Vital Signs, Britney Pine, Vested Wishes, Lopin So Pine, Gold Styled VP, Gotta Good Name, Invest in a Lotto, to name a few.

The new year will find Vested Pine standing in Bronson, Michigan where he will be under the management of Equine Reproductive Specialist Dr. Joanna Bronson. Dr. Bronson has had a very successful large and small animal clinic there for several years. We have had a long standing relationship with her as our attending veterinarian for all our equine needs so we can attest to the great service, outstanding results with any treatment or medical procedures, and the personal individualized care that she provides.

Black Creek Crossing will continue to provide support for the mare owners that breed and raise Vested Pine foals and the trainers who show them. Along with the strong advertising program, we will continue to nominate Vested Pine to all the major incentive programs such as Incentive Fund, Breeders Trust, Southern Belle, NSBA SIF, and the Tom Powers Triple Challenge program. Additionally, his foals will now be eligible for the German Futurities in the European Union for 2010 breedings. His frozen semen will be offered through the European Horse Breeders beginning the fall of 2009.

Once again, thank you for your interest, and we look forward to working with you in 2010!

Lori Watkins ~ owner
